

**Available on DVD  
& Internet**

**Presents:**

# **Teaching Strategies that Create that... Aha! Moment**

Aha moments are more than just a keen idea or sudden revelation. Research has discovered that these light bulb moments can be created and occur more often in the "prepared mind." Mathematics and Sociology are only a few of the disciplines we'll explore as award winning instructors share their stories and strategies that created aha moments for their students in the classroom and online.

**Online 24/7**

**October 11 - 25, 2010**
