# HOW TO DEVELOP AND ASSESS COURSE LEARNING OBJECTIVES

How do you identify and create the most suitable objectives for your course? What assessment strategies are best for measuring these goals, or does it even matter? Take the mystery out of a mind-boggling process, and join us for this session packed with tips from an international range of master teachers.

You will learn:

- ◆ The differences between course objectives and outcomes
- ◆ How to identify objectives that clearly define what students will learn
- ◆ How to blend objectives into current course materials and syllabus
- ◆ Assessment strategies that effectively demonstrate student learning

**ONLINE 24/7**
